1	Get trouble kids out of the general population schools, let teachers teach, return discipline and punishments to schools. Stop raising taxes on Seniors by assessing their homes higher than when they bought/built them.	10/22/2025 7:06 AM
2	I think it would be nice to encourage residents start conserving water as these are things I have done for a long time. 1. Take shorter showers. 2. Only wash full loads of clothes. 3. Don't water lawns unless newly established. 4. Only run a full load in the dishwasher. As far as solar farms I have solar on my house I don't think we need solar farms. If someone wants the benefits from solar, they should put it on their house or yard.	10/22/2025 7:00 AM

8	I'm reaching out with a concern about pedestrian safety along Kings Highway and Comorn Road. These busy roads currently lack sidewalks, putting walkers at risk. I urge the county or planning authorities to consider adding sidewalks in future infrastructure plans. It would make the area much safer and more accessible for everyone.	10/21/2025 2:56 PM
9	1. Retention of high quality instructional staff including but not limited to teachers, principals (including vice), and paraprofessionals. 2. Let's teach them to at least use the words of reorder and good Mannors. Too much growth we have become southern Maryland	10/21/2025 10:44 AM
15	We underpay our county and school employees and we are understaffed. We are not keeping up with maintenance on the properties that cost us so much to build. We need to raise taxes. We are not a poor county. Quite the contrary. It is way past time that we started to pay our	10/21/2025 10:44 AM

21	Personal taxes and living expenses remain unnecessarily high, largely due to perceived county mismanagement and inefficiencies—particularly in areas such as water and resource use. The county is already experiencing an unintentional “slow growth” period, with few new neighborhoods, businesses, or corporations being developed. Therefore, essential services such as schools and roads should not be negatively affected by budgetary constraints. Priority should be given to paying off existing debt rather than pursuing costly, non-essential projects (e.g., a new courthouse). Future funds should be directed toward infrastructure improvements that will help attract quality investors and sustainable economic growth. Additionally, roadway safety and traffic flow require immediate attention—especially at the intersection of Owens Drive and Windsor Drive, where congestion and safety concerns persist.	10/21/2025 9:42 AM
22	Lowering taxes	10/21/2025 9:33 AM
23	Mowing berm on county roads (ie. 694, 605, 610) to allow for walking to bike trail	10/21/2025 9:33 AM
24	There are plans for at least two solar farms in KG. As a resident near one and dependent on well water, I am deeply concerned about industrial runoff, soil destruction/depletion, and devaluing of my property due to any pollution of my well water.	10/21/2025 9:29 AM
25	I request the BOS initiate the process of having a route number assigned to the service road in front of Big Dogs and Ace at Rt 205 and rt 301 by VDOT. Based on my discussion with VDOT they do not maintain the service road because it does not have a route number therefore it is not in their inventory to maintain. When neglected this road presents a danger to the public due to traffic turning slowing or stopping while turning onto the road. This has been a problem for many years.	10/21/2025 9:26 AM

1	How do we get developers to pay for the increased demand on our infrastructure, schools? Why don't we switch from personal property and real estate taxes to a piggyback local income tax?	10/22/2025 7:06 AM
2	Why is their talk of a new subdivision if we are having a water shortage? There are already to many empty homes and buildings sitting in King George that should be cleaned up, renovated and used. How can the county get people to clean up their properties for example: Reeds Electric in Owens That is an eyesore for all that have to travel on 206. Also, what is all of those rusting machines doing to the environment.	10/22/2025 7:00 AM

8	I don't have any questions—just a heartfelt opinion. Please don't turn the beautiful landscape of this county into rows of data center buildings. This area has long served as a retreat from the hustle and bustle of our NOVA-bordering neighbors. What were once quiet, peaceful communities rich with wildlife and nature trails are now being replaced by industrial warehouses. Let's preserve this county as a sanctuary—not only for nature, but for people seeking a “farm-like” lifestyle, far removed from NOVA's noise and congestion.	10/21/2025 2:56 PM
9	With experienced teachers leaving in higher numbers, recently transferring to other counties to receive significantly higher pay, what is your plan in retaining the high quality instructional staff if you choose not to be competitive with salaries? What is the plan to stop cars from running red lights frequently in the county? Can we put red light cameras along route 3 and route 301 to discourage this unsafe, reckless driving. Can you share your vision of what our schools and roads will look like in the county in five, ten, & twenty years?	10/21/2025 2:15 PM
10	What is the plan to get control of the debt? How long will the dump provide income. How much will taxes need to be raised to offset the loss of dump income.	10/21/2025 11:56 AM
11	Approval of these data warehouses and lack of infrastructure to support them. Idiotic solar farms near a state park.	10/21/2025 11:30 AM

15	Will you support the schools entering in to a collective bargaining agreement? I know it is up to the school board but the BOS will have the power to undermine the effort so your opinion is important. I think you should have the courage to go on record. Thanks.	10/21/2025 10:44 AM

17	Is there any focused plan to address high taxes, inadequate infrastructure and the absurd desire to approve every building plan. Perhaps more direct resident involvement in planning/approvals. BOS is failing us miserably. In 10 yrs KG will be like route 610 in Stafford.	10/21/2025 10:22 AM
